

Technica stands in solidarity with the Black community and those protesting with the Black Lives Matter movement. Technica's mission is to fight for gender inclusivity and we recognize that an open, welcoming environment for all cannot be achieved without racial equity.

We condemn the police brutality that has taken the lives of George Floyd, Breonna Taylor, Ahmaud Arbery, and countless others and extend our condolences to their loved ones. We demand justice and radical change in the systems that allow this violence to continue.

Racial equity cannot be achieved unless we actively speak out against the structural barriers Black people face everyday when it comes to housing, healthcare, employment, education, and the criminal justice system. We implore the Technica community and the greater hackathon network to continue speaking out against these injustices and actively listen to and amplify the voices of the Black community.

Black Lives Matter.

In Solidarity,

TECHNICA
